**Model number:** U110, U115, U118, U125 [www.LCDaccessory.com](http://www.LCDaccessory.com)

## A COMPLETELY NATURAL PRODUCT

Our patented technology is based on the application of an ultra thin \* "nano layer" of pure glass (\* a silicon dioxide / quartz glass layer, approximately 5000 times thinner than a human hair.) As we know, quartz is a naturally abundant, inert and completely recyclable substance; and so our award winning products have no negative impact on the ecosystem.
